

"OLDER BOYS" MET IN ORLANDO FRIDAY

ORLANDO, Oct. 27.—One hundred and sixty interested and enthusiastic boys left for their homes last night after spending two days in attendance at the second annual Older Boys' Conference, held under the auspices of the Florida State Young Men's Christian Association. This was the second session of this year's meeting, which is being held in three divisions in order to reach boys from all parts of the state. The first session convened in Tallahassee last week end and the third session will open in West Palm Beach next Friday night.

This second session opened here Friday afternoon with the organization meeting, at which time officers were elected. It is the custom in these conferences for the boys themselves to be in charge, so at the very beginning the nominating committee of boys made its report and the conference elected its officers as follows:

- Tom Gedge of Orlando, President.
- Harold Tilden of Winter Garden, First Vice President.
- Reginald McKay of Ocala, Second Vice President.
- Frank Massey, Dade City, Third Vice President.
- Curtis Warren of Tampa, Secretary.

The president turned over the duty of presiding to the various vice presidents at times during the conference. A committee on resolutions was also selected by the boys and its report was submitted at the farewell meeting last night. This committee was composed as follows: Henry McLaughlin, Sanford; Tom Caldwell, Lake Wales; Norman Newsome, Tampa; R. B. Woodward, Dade City; C. C. Dalley, Jacksonville; Fulton McCullough, Palatka; and Richard Slans, Orlando.

The opening banquet on Friday night was presided over by Hon. W. L. Tilden, county solicitor of Orange county. Addresses of welcome were made by Mayor James L. Giles and Howard Cook and responded to by "Pat" Walker of Leesburg. Mr. Fred B. Freeman of New York made the address of the evening in a most interesting and inspirational manner. The theme of the conference was "The Quest of the Best," and this was the topic on which Dr. Freeman spoke.

Colored People Delighted With New Discovery To Bleach the Skin

Atlanta, Ga.—Says that recent tests have proven without doubt that swarthy or sallow complexions can be made light by a new treatment recently discovered by a man in Atlanta. Just ask your druggist for Cocotone Skin Whitener. People who have used it are amazed at its wonderful effect. Rid your face of that awful dark color or greasy appearance in a few minutes. It costs so little that you can't afford to be without it. Just think how much prettier you would look with that old, dark skin gone and new, soft, light skin in its place! Men and women today must care for their complexions to enter society.

If your druggist will not supply you with Cocotone Skin Whitener, send 25 cents for a large package to COCOTONE CO., Atlanta, Ga. (Adv.)

Saturday morning Richard Slans of Orlando read a paper on "The Quest of the Best in the Gang." "The Best for Christ" was the subject of an address of Rev. C. W. Duke of Tampa. Mass games were given the boys Saturday afternoon as samples of what could be done in their own communities. Those were conducted by E. J. Mileham, county secretary for Orange county Y. M. C. A. The decision meeting yesterday afternoon was addressed by C. W. Blakey of Atlanta on "The March of the Conqueror." All churches of the city joined in the farewell service at the Presbyterian church last night. Mr. Frank Ritchie, international secretary of the Y. M. C. A. of New York, gave the farewell address on "The Challenge to Leadership." The address was impressive and gave the boys many inspiring thoughts to carry home.

Representatives from Tampa, Ocala, Bartow and Sanford invited the 1920 conference to meet in their cities. The selection will be made later on.

ENEMIES OF CITRUS TREES

The citrus crop promises to be an important one this season in Florida, says the State Marketing Bureau, and every effort should be made to conserve and get it on the market in the very best form. Labor, of course, is scarce, and there are other obstacles. Among the enemies to the crop are insects and diseases. These are described in bulletins issued by the State experiment station at Gainesville. The first bulletin is No. 148, entitled "Insects of Citrus Groves," and the second is No. 150, entitled "Florida Citrus Diseases." Both are fully indexed, and are sent free on application.

FLORIDA REGISTERS 90% OF DEATHS

Florida will be one of the nine southern states in the United States death registration area for 1919, as a result of a successful check made by agents of the Bureau of Census, showing more than 90 per cent of the deaths in the state registered.

The state wins the honor of entering the registration area and having a standardized death rate as the result of two years' unflinching work on the part of Dr. Stewart G. Thompson, vital statistician of the State Board of Health. Since Dr. Thompson took charge of the vital statistics department two years ago, coming to Florida from Kansas, where he assisted in placing that state in the registration area, he has worked unceasingly to get the death rate of this state standardized.

Florida enters the area ahead of Georgia and is the thirty-third state to be admitted. The fact that she is the third largest state in the area in point of territory, and that her population is so widely scattered in rural and outlying districts, makes the achievement of the vital statistics department even more significant.

Dr. Ralph N. Greene, state health officer, declares that the standardized death rate will be a vitally important instrument in making more searching the work of the State Board of Health, and declares it one of the most important things accomplished by the institution.

With the state entered in the death registration area, Dr. Thompson will begin at once plans to put Florida in the birth registration area. To this end he will launch a systematic campaign to blanket the state with information as to the importance of birth third largest state in the area in point of births. The state law regarding birth registration also will be rigidly enforced.

FARMERS STAND LIKE A STONE WALL

At this time, when efforts have been made in the northwest of the United States to impress President Wilson, and through him the nation, with the radicalism which is supposed to have a strong hold upon the farmers and others in that section, the stand just taken by the national agricultural convention affords welcome reassurance. Very largely, as senators and representatives in congress this week told the Washington meeting under the auspices of the National Board of Farm organizations, the farmers are the backbone of the country. At least they are as much the backbone of the nation as any other single element, politically as well as economically, and now probably more than ever before: for not only are they better informed concerning important questions, but they are far better organized, with headquarters in the national capital.

The continued stability of the agricultural people of the country was shown in various ways in this national convention, but most notably, perhaps, in the adoption, amid applause, of a resolution condemning the most conspicuous manifestations of revolt against government under the American system. The resolution, it should be noted, was passed without exceptions being taken, even by the delegates from North Dakota, the home of ultra-radicalism, so far as the farmers are concerned. And thus notwithstanding the fact that the expression placed the right of private property side by side with those of "personal liberty and personal security" as the great rights of free men guaranteed by the Constitution of the United States, the convention, in the closing paragraph of its statement of policy, declared:

The farmers of America hold these rights to be priceless and stand like a stone wall against the radical minority that are advocating Bolshevism, Anarchy, and ultra-Socialism, each and all of which are destructive of the right of private property and undermine the very foundation of government.

Indeed, a disinterested and presumably impartial observer was probably fully justified in a remark which he made, that the tone of the gathering was distinctly conservative. Nor is this, on the whole, surprising.

The great body of consumers in the country will be interested to know that these representatives of the tillers of the soil, from the Atlantic seaboard to California, expressed themselves as being in favor of the consumers organizing under the law, movements for co-operative buying, in order to reduce the cost of living, bring the producer and the consumer into closer relations and discourage profiteering. The attitude of the delegates of this large and important section of the population was, as might reasonably have been expected, one of pronounced opposition to the influence of monopolies over commodities, and

of readiness to co-operate with the general public to oppose the encroachments of capitalism, on the one hand, and of the radical elements of labor on the other. In short, there was every indication that the farmers would remain a steady factor in the nation.—Christian Science Monitor.

A Knot of White Ribbon.

Only a knot of ribbon, a tiny bow of white. Yet it stands for God and Heaven and everything that's right. It stands for home and country and all that's good and true. And they who gladly wear it the Master's work will do. It rests on hearts determined, whatever comes or goes. To purify our nation and fight its deadly foes. It urges on to victory, knows not the word defeat. Entreat those who wear it their God in prayer to meet. We prize the knot of ribbon, we love the bow of white. That stands for home and Heaven and every thing that's right.—E. M. K.

She said that they had sent her son—a fisherman who had joined the navy—there, and that she would never see him again, and fell a-sobbing. Her lodger did his best to comfort her, assuring her that people came back from Russia as from other foreign parts. "Not from where they've sent

TAKE CARE OF THE SWEET POTATOES

The sweet potato crop is now being harvested. The potatoes are sometimes dug before being fully mature. A maturity test, according to experts, is to select a root from an average vine of apparent maturity, break and expose the broken surface to the air, and if mature, the wound would turn white, and dry within a few minutes. Caution is advised, says the State Marketing Bureau, in the matter of handling them to prevent bruises or cuts. Some large growers require men to wear gloves so that their finger nails may not scratch the tender skin. On the other side there are growers who handle them like coal, and the result is injury to the tender skin and early rotting. Do not put in storage any that may be bruised or cut. One rotten potato will soon inoculate and spoil all around it. Grade them carefully and keep the small and irregular ones for feeding purposes. When graded at the start

the work is done, and they are ready for market when the demand is good. When digging do not allow them to be exposed to the hot sun.

Talk about adventures!
Men in the Navy come home with the kind of experiences that most chaps read of only in the books.
Here's your chance!
 Uncle Sam has, as you know, a big Navy and gives red-blooded young fellows like you an opportunity to step aboard and "shove off".
What will you get out of it?
 Just this:
 A chance to rub elbows with foreign folks in strange parts of the world.
 The chance for good honest work on shipboard—the kind of work that teaches you something real; the kind of work that puts

beef on your shoulders and hair on your chest.
 You will get 30 care-free vacation days a year, not counting shore leave in home or foreign ports.
 You will have the kind of comradeship in travel that sailors know.
 You will have regular pay over and above your meals, lodging and your first uniform outfit—good stuff all of it.
 You can join for two years. When you get through you'll be physically and mentally "tuned up" for the rest of your life. You'll be ready through and through for SUCCESS.
There's a Recruiting Station right near you. If you don't know where it is, your Postmaster will be glad to tell you.

*To any Father and Mother:—
 In the Navy your boy's food, health, work and play, and moral welfare are looked after by responsible experts.*

 And throw him in the kennel.

So far as possible each person engaged in taking the census will be employed within the district in which they reside.
 The Director of the Census states that he believes the compensation of enumerators in the January census taking will average not less than \$100. Reliable persons, women as well as men, between the ages of 18 and 70 years, are wanted for this work in every county, town and city. An enumerator must write a plain and readable hand.
 Good men, familiar with conditions are especially needed for taking agricultural and population returns of the country districts.
 The enumerators of this county will assemble about November 1 for simple test examination and instruction. The work will begin day after New Year, and continue for from two weeks to one month, according to locality.

Environment

I hear men say, sometimes, "Great Scott! This is the village God forgot! There is no chance for me to rise, in this old burg of mossback guys." Then they go forth, upon a day, to fairer pastures far away; and there they find things just as bad as in their own abandoned grad. It cuts no ice where genius dwells, we'll always see it wearing bells. The man who has the goods may go to desert waste or arctic snow and there hang out his modest sign, and he will find that trade is fine. Ours is a quiet, dreamy town, but it would hold no fellow down. If some youth shows the proper fire, with wrench or hammer, brush or lyre, men drop their work for half a day, to help him upward on his way. With proper stuffing in your head there isn't any town so dead that you can't cut a swath right there and nineteen kinds of laurels wear. And in the dearest, grayest town a man may win a world renown. If you, fair reader, where you are, can't hitch your wagon to a star, you couldn't do the trick in Cork, in Boston, Joplin or New York.

OCTOBER 1 CROP REPORT

Sam T. Fleming, State Field Agent
Citrus
 Florida's citrus crops are approaching the market season in nearer normal condition than for years past. The trees as a whole have recovered almost entirely from the effects of the freeze of 1917, have practically a normal surface of bearing wood and have been cultivated, pruned and sprayed with more than usual thoroughness.
 Reports of Oct. 1, from all over the belt, show a condition of 87% normal for both oranges and grapefruit. Last year on the same date, oranges were 84% and grapefruit 78% of normal; in 1917 oranges were 55% and grapefruit 52% of normal, and in 1918 oranges were 73% and grapefruit 70% of normal.
 With a condition of 87% of normal on Oct. 1, it is estimated that the commercial crop of oranges will approximate 6,500,000 boxes and grapefruit 3,500,000 boxes.
 A total of all citrus of about 10,000,000 boxes.
 Weather conditions for the balance of the season will affect the size of the commercial crop, resulting in a larger or smaller final production than indicated by condition at this time.
 The crop is ripening rapidly and shipments, mostly of grapefruit, are beginning to move from the extreme southern end of the belt.
 Reports from California show no change of condition of oranges from a month ago and a smaller crop than for the preceding season is expected.

Corn
 The bulk of the corn crop has been harvested. Production is estimated at 12,671,000 bushels, compared with 14,080,000 bushels last year.
 There is a noticeable tendency this year to get the crop out of the field early, and a great many farmers have prepared to kill weevils by fumigating in the crib.

Sweet Potatoes
 The condition of the crop has deteriorated slightly during the past month. Rain has been needed for late plantings which will show a low yield with continued dry weather.
 Production is estimated at 4,400,000 bushels compared with 3,900,000 bushels last year.

Oats
 With 60,000 acres cut for grain, the average yield per acre is estimated at 15 bushels, indicating a production of 900,000 bushels. Last year with a slightly larger acreage, production was 1,080,000 bushels.

Tobacco
 Condition at time of harvest was 99% of normal, indicating a yield of 990 pounds per acre and a total production of 4,554,000 pounds. Last year production was 4,410,000 pounds.

Peanuts for Grain
 It is estimated that only 83% of last year's acreage harvested for grain will be harvested this year. This indicates an acreage for commercial purposes this year of 126,000 acres against 153,000 acres last year.
 Production is estimated at 4,284,000 bushels compared with 5,202,000 bushels last year.

NEWS ABOUT ST. CLOUD

METHODISTS.

(Contributed)

The "Unit" meetings have been growing in power and interest. In the past week they broke out into a revival flame, and some were converted, and a revival seemed imminent. Then the flame seemed to die down somewhat. Last week it flamed higher up than ever, and the prayer meeting Wednesday night, October 8, was of such power that the people desired the meetings to be continued, and they were so continued Thursday and Friday nights, and on Sunday night the matter was left to the people, and they desired the meetings to continue, and they have been continued with increasing interest and attendance.

The Units which have been meeting after dark are now held with the service in the church. These meetings will continue indefinitely and will be governed by the interest and apparent need. The Unit meets which have been held day times continue increasing in interest and power.

Sunday morning was observed as Rally Day. Each class in the Sunday school was to have prepared something as a surprise, and something different, and most of them had it all right. It was a very interesting time, and enjoyed by all.

Sunday morning Mr. W. H. Lee united with the church. Brother Lee has worshipped with us for the past six years, but has not until now united in the membership of the church. He says he feels as though he had changed his relation to the church from that of a step-brother to a full brother, and likes it.

The Sunday school board meeting on Tuesday evening showed the Sunday school to be in a prosperous condition.

The carpenter work on the African Methodist Episcopal church has been completed. Material and labor have increased so much in price that there was not sufficient funds with which to pay all the bills; \$230.50 have been received by the treasurer of this fund, and it has all been paid out, and there yet remain unpaid bills to the amount of \$136.62, thus making the total cost of the material and work put on the church to be \$367.12. Sunday, October 26, has been set apart as the time for the dedication of the church. These people are then to have their presiding elder and some other prominent men of their church to be present and help with the work of raising the money necessary to pay off the amount yet due. Besides the \$136.62 now due and not paid, they should have at least two coats of paint on the building and also there should be some pews provided. A cheap pew can be prepared reasonably, prices considered, and this should be done. The point would cost about \$60, and the pews would cost about \$150. These amounts added to the \$136.62 now due, would make \$346.62. These sums, with the amount already put on the church, will make a grand total of \$578.12, and it would make a neat and serviceable church in which colored people could worship, and it is a worthy work. Perhaps many cannot attend the services at the church, as will be amply announced next week, but in that event perhaps you could leave a substantial subscription with the secretary-treasurer of this fund, Mr. B. E. Gessford, at Makinson's hardware store, and that will help the cause along.

Come to the meetings! You are invited.

EFFICIENCY RECORD KEPT BY TAXI COMPANY

The average automobilist can learn many things of value from the taxi owner. The average owner usually drives one car and gets the experience that comes from operating that single machine. But the taxi owner has a string of cars in his service, and is in a position to find out by actual test the exact merits of various types of automobile equipment.

In addition to having more cars, the taxi man is able to study the type of service given by cars and equipment under the most strenuous conditions. The grueling, racking treatment that falls to the lot of the taxicab in a big city makes it possible to make a proper estimate of the value of each item of equipment.

The modern taxi company runs on efficiency lines and keeps cost and service sheets that tell him what he gets for his money.

The United States Tire Co. is in receipt of the following letter from S. H. Miskend, president of the Blue Taxi Co., one of the big taxi firms in Brooklyn, N. Y.:

"You will probably be interested in the records we have recently compiled on two hundred United States tires, 34x4 1/2 Chains and 36x4 1/2 Chains, that we purchased a year ago this month.

"We find upon investigation that although they were used on heavy white taxicabs in all kinds of weather and under the usual taxicab conditions, we have not had one single adjustment. Everyone of these tires gave satisfaction.

"Feeling that a manufacturer would be interested in a record of their goods, we are advising you of these facts with the idea that you may at some time want to refer some one to us in the same line of business who contemplated buying tires, and you can rest assured that we would recommend them very highly."

OWNING A HOME HAS BECOME A NECESSITY

Owning a home has practically become a necessity in St. Cloud, provided the man of family cares to enjoy that peace of mind and happiness that can be secured only through the knowledge that he is the owner of the place in which he resides.

The home owner is satisfied because:

He is not constantly dreading that some one else will pay a higher rental or buy the house, forcing him to move.

He is not worried over the rent man calling each month at his home.

He is contented because he knows he can not be forced to vacate and perhaps be forced to take any kind of a cottage or shack and pay an exorbitant rental.

In these times in St. Cloud the man who rents a home can not be sure that tomorrow he will not get notice to vacate, for there are hundreds of families waiting the chance to get a desirable house and they will buy or pay a higher rental to get it. How many cases have you heard of in the past few weeks who were forced to move because some one else either bid higher for the house or else bought it.

YOU MAY BE THE NEXT UNFORTUNATE MAN.

So why not take advantage of the inducements we are offering persons who want to own their homes—we have the most desirable locations for homes that can be found in the city—and then

YOU WILL BE AMONG THE CONTENTED FAMILIES

Why not think it over and act without delay. Building material is not going down. It will not do so for years. Neither will rents be reduced, so it is up to the head of every family to own a home and be among the contented people.

In order to give you an idea of some of the places we have to offer, we quote a few prices on saleable property, on trades and exchange propositions, as follows:

- Five lots, 5-room house, 52 large bearing fruit trees. Bungalow and barn, 5 lots, close in—\$1,250.00. Two-room furnished house, \$300. Some excellent business propositions. Business property in Peru, Ind., for sale or trade for St. Cloud property. For sale, 3-room house, 2 lots, tool house, wood shed—\$250. For sale, 4-room bungalow, fine fruit trees—\$450. For sale, 5-room house, four lots; fruit trees—\$500 cash, balance as rent. Home in good neighborhood—\$400. Three-room house, 4 lots—\$400. Three-room house, 2 lots—\$550. Bungalow, close in, good neighborhood—\$850. Five-room bungalow, Doop's Addition, and 10-acre tract—\$850. Three-room house, lot 50x300 feet—\$400. Four big rooms, 1 1/4 acres land, near canal—\$450. FOR SALE, OR WILL TRADE ST. CLOUD PROPERTY. For sale or will trade for St. Cloud property, 160 acres in Cortez, Colorado—\$10 per acre. Two city lots in Brooklyn, N. Y., one mile from Coney Island, within two miles of electric railroad station—sale or trade.

Mill Girls Win Honors Forming Thrift Clubs

Upper group, back row, left to right—C. E. Bagwell, D. O. Bryant, E. M. Pressley, J. L. Copeland, T. S. Potest. Front row—Mrs. Bessie Tice, Misses Ora Foster, Minnie Thompson, Estelle Davis, Minnie Davis and Bessie Hughes. Lower group, left to right—Miss Lena Maddox, Miss Ollie Fallas, T. E. Lents, Miss Lillie Bennett and Miss Maggie Simpkins.

When they start passing out decorations and citations for distinguished service in peace, watch for some of the honors being bestowed upon these two detachments of Uncle Sam's Thrift army. They're the champion Thrift Club organizers of the Southeastern cotton mills.

While the war was on they learned to save and put their money in Thrift and Savings Stamps. Afterwards they found out that thrift was a pretty good thing to help beat the high cost of living and make it possible to save for the things they just couldn't buy if they had to pay all at once out of a week's wages. And, they couldn't

see any reason why others shouldn't save too.

The girls are operatives in the big Hillside cotton mill at LaGrange, Ga. The men r+ overseers and second-hands in the same mill. So, to get everybody in the mill in the habit of saving, they formed two teams of girls, with the men as leaders. Then the fun started. Rivalry in getting members in the Thrift Clubs was keen. In three weeks they had every employe in the mill,—600 of 'em—enrolled and buying Thrift and Savings Stamps regularly. The weekly sales of stamps in the mill is more than \$1,900 and growing every pay-day.

THIRD RED CROSS CHRISTMAS DRIVE

The war achievement of the American women, who are now being mobilized for the third Red Cross roll call, Nov. 2 to 11, is but one of the numerous activities by which they backed up the country's fighting men, is revealed in the announcement from American Red Cross national headquarters, that in two years they produced nearly \$100,000,000 worth of surgical articles and garments. During the 24 months ending April 30, last, the figures show, Red Cross chapter workers turned out 375,174,825 surgical dressings, hospital garments, refugee garments and knitted comforts for the soldiers and sailors, the estimated value of which was \$98,148,359.

It is estimated that 8,000,000 women and girls participated in this tremendous work and it is among them largely that the Red Cross is now recruiting the million workers who will assist in the enrollment of members for 1920 during the ten days ending Armistice Day, when nearly universal membership will be sought to maintain the effectiveness of the organization built up in the war for the peace program of the Red Cross. These women, of all ages, in Iowa, Nebraska, 60,967,863 articles early and late in home and Red Cross work room throughout the land, and to their efforts was largely attributed the morale maintained in Allied countries through the assistance given the suffering civilian populations, in addition to the cheer and comfort their labor carried to the American troops.

The approximate number of articles, and their estimated value, produced by the women of the various Red Cross divisions as revealed by recent figures, were as follows:

New England (Maine, New Hampshire, Vermont, Massachusetts, Rhode Island) 29,084,706 articles, valued at \$7,436,695.

Atlantic (New York, New Jersey, Connecticut) 77,859,994 articles, valued at \$15,597,428.

Pennsylvania, Delaware, 25,277,321 articles, valued at \$7,670,279.

Potomac (District of Columbia, Maryland, Virginia, West Virginia) 7,361,036 articles, valued at \$2,404,319.

Southern (North Carolina, South Carolina, Georgia, Florida, Tennessee) 10,390,796 articles, valued at \$3,157,233.

Lake (Ohio, Indiana, Kentucky) 26,010,749 articles, valued at \$9,189,059.

Central (Illinois, Michigan, Wisconsin, Iowa, Nebraska) 60,967,863 articles, valued at \$17,290,275.

Gulf (Alabama, Mississippi, Louisiana) 6,839,652 articles, valued at \$2,121,998.

Northern (Minnesota, North and South Dakota, Montana) 22,492,221 articles, valued at \$7,594,156.

Southwestern (Missouri, Arkansas, Kansas, Oklahoma, Texas) 65,319,004 articles, valued at \$13,382,229.

Mountain (Wyoming, Colorado, Utah, New Mexico) 13,379,955 articles, valued at \$3,209,363.

Northwestern (Washington, Oregon, Idaho) 10,522,530 articles, valued at \$4,169,511.

Pacific (California, Arizona, Nevada) 19,669,268 articles, valued at \$4,557,482.

production was not the only activity of these local women, who worked directly for the success of the country's war efforts, for they were tireless in Red Cross canteen and hospital work, in the two war fund campaigns and Christmas roll calls, the remarkable increase in Red Cross membership from 328,000 before the war to its present strength of nearly 20,000,000, exclusive of Juivers, being attributed in very large part to their assistance.

RED CROSS CHRISTMAS SEALS

There is one campaign in this country whereby the smallest rural community can prove a factor for good, and this involves the coming drive for the sale of the Red Cross Christmas Seals, which in this state will be conducted under the auspices of the Florida Anti-Tuberculosis Association. This organization is composed of a large number of Florida's most prominent men and women, and it has been conducting for some time past an educational campaign, which has proved most valuable to the state. It is waging an unrelenting war against tuberculosis and those familiar with the achievements are singing the praises of the plans and purposes, and the accomplishments of the organization.

During the early part of December the Red Cross Christmas Seal Sale will be on, but prior thereto, it is necessary to organize each and every county in Florida.

Tuberculosis claims 150,000 of our people annually. It can be cured, and it can be prevented, and there is no work more noble than the saving of human lives. It should be said in this connection that the money derived from the sale of these seals will practically all be spent in Florida. Each county will get direct benefits therefrom, as seventy per cent of the amount realized by any one county will be spent in that particular county in this great work.

Many drives have excited interest in the past and they have all been worthy ones. However, the time has arrived when we must bring matters closer to home, and we have troubles now without worry us at this time about the rebuilding of Europe. This is an American drive for Americans who are afflicted for babies who are dying, and for the alleviation of the suffering of our own people.

In consequence thereof, it is a movement in which the church people and those outside of the church can harmonize upon and be effective service in the cause, and take pride and happiness in the opportunity given them in the accomplishment of so much good.

A. N. U.

The Elsie P. McElroy Auxiliary No. 17, Army and Navy Union, met at the usual time and place, Lady Commander Emerelda Vreeland presided. Four chairs were vacant. The Minutes of the previous meeting were read and approved. Paymaster's report was read and approved.

The lady adjutant was called out on business, and Lady Comrade Francis kindly filled her place.

A motion was made and seconded that we have a Halloween social on the fifth Thursday of Oct. (Oct. 30), to serve ice cream and cookies, and render a program, admission to be 15 cents. Everyone is invited. Don't forget the date, Oct. 30.

Meeting adjourned as soon as possible, to let as many as wished go to the funeral of Mrs. Campbell.

Next meeting, Oct. 27. All lady comrades please come, as we have important business.

CHIC LACE BLOUSE

Effective Garment Designed for Early Fall Wardrobe

May Be of White or Colored Material, to Suit Skirt With Which It Is Worn.

The sketch shows a very smart little blouse of lace which will be found a valuable addition to the early fall wardrobe. It may be made of black, white or ivory-colored lace, or, if desired, a lace may be dyed to match the skirt with which the blouse is to be worn. Dyed laces have been very much favored during the last season or two. This blouse is finished at the waist with a narrow ribbon girdle, and as originally designed the garment was made of ivory-colored chantilly lace. The girdle was of inch and a half wide double-faced satin ribbon, green on one side, black on the other.

The woman who is economically inclined can usually supply herself with several smart and dressy skirts from the remains of sheer net, georgette or silk voile frocks, as the dress waist nearly always wears out first, and with several good-looking blouses at her disposal she can develop an afternoon frock for early fall with very little expenditure of time or money.

Paris designers are sending over some very smart separate skirts as models for the American trade, but before these reach the consumer there is little doubt that they will be greatly modified.

As a rule, the French-designed skirts are very short and tight, with elaborate over-drapings. A drapery that flares on one hip only is a favorite. The really dressy separate skirt will almost certainly be in great demand during the coming fall and winter, due to the fact that the elaborate

Smart Blouse of Chantilly Lace.

over-blouse has finally been accepted by American fashion authorities and the public at large. Two-color combinations are frequently seen in the handsome skirts of satin and soft silks and two-faced fabrics are excellent selections, one side serving as a trimming for the other, or making the arrangement of the novel draperies easy.

SMALL GIRLS LIKE SMOCKS

Fashion Never Seems to Lose Its Popularity, With the Little Ones or Their Elders.

For little girls of six years and less dresses of the smock type are unquestionably favorites. One manufacturer gives to figures has estimated that wash frocks, especially smock dresses, sell twenty to one of any other style. This may be exaggerating things a trifle, but the fact remains that the little, comfortable, straight-line smock frocks are liked by the child as well as by their elders, and each season witnesses the introduction of many little novelties that may still come under the "smock" heading.

Wash dresses are generally considered the best selection for little girls of six years and less regardless of season or weather. Houses and apartments are so well heated these days that children do not require to be warmly dressed when indoors, and when out of doors warm sweaters and wraps give the necessary protection, no matter how light the garments that are worn underneath.

Some of the new gauze turbans are enormous; so wide that they completely hide the hair, even at the sides. Some lovely ones of this order are being made of silver gauze embroidered in black and veiled in flesh pink tulle. A startling turban seen the other day was made entirely of leaf-green tulle. The fragile material was wound round and round the head in a mysterious fashion. This was worn by a well-known actress.

Coming Fashions.

Short sleeves are unquestionably the vogue among smart women, for these are much in evidence where fashion congregates. But conservative women seem to be still clinging to the wrist length sleeve in both dresses and blouses.

IT PAYS TO ADVERTISE

Bradstreet's says that "84 per cent of all failures are among non-advertisers!"

Which, considering the source of the declaration, is pretty conclusive proof that advertising pays.

When Bradstreet's says that only 16 per cent of business failures are among advertisers the statement has real significance.

No business firm ever became truly great except by the aid of advertising. Like competition, advertising is the "life of trade." Without it, in modern days and under modern business conditions, no commercial or other business can achieve the success that it can with it.

That is axiomatic, as every successful business man will attest.

Outside, possibly, of personality and integrity, advertising is the mightiest force, positive and potent, in present-day commerce and business.—Atlanta Constitution.

MILK IS BEST MEDICINE IN THE WORLD FOR CHILDREN

AND ADVANCED AGE

Good food is the best medicine in the world for growing children and milk is nature's finest food.

In milk nature combines all the elements that build up and sustain strong, healthy bodies, from its nourishment is quickly assimilated by the body to restore worn tissue and to make new muscle, bone and energy, because milk is a balanced food. It is easily digested, does not overtax the stomach, and it supplies nourishment in proper balanced proportion. A quart of milk a day for each child or person

will do away with the need of expensive drugs and you will be 100 per cent better for it.

Serve milk as a beverage at every meal. Serve more milk in puddings, creamed vegetables and on cereals. Give it to the kiddie as an inter-medical drink.

No child can get too much milk, and be sure you get milk from the Model Dairy, rich, pure, wholesome milk, from the dairy whose modern equipment and advanced methods of sanitation have made it famous.

Dealers in fresh meat, fruits and food stuffs are warned that there is a state law that requires all such meats or food stuffs to be kept in screened places, and a few complaints having been made locally, it will be a matter to be handled by the State Board of Health if the law is not complied with. The utmost care should be taken to keep all food stuffs, especially fresh meat, in a place screened tightly, and where proper refrigeration to preserve the wholesomeness of the food. Patrons of dealers can safeguard themselves by refusing to buy where the proper precautions are not taken.

A Declaration of Dependence.

Secretary Lane, in assuming his duties as chairman of the industrial conference in Washington, said:

"We will draft here a declaration of dependence—not of independence—a declaration that we are united one with another, that we live in one another's breath, and that we can not live in isolation; that we must join hands together, not for our own sake alone, but for the greater sake of our country and of the world."

It is a happy phrase—a "declaration of dependence." It speaks the urgent need of the hour. Mutual dependence is the natural, logical follow-

er of independence. After freedom comes co-operation; otherwise the fruits of freedom are lost.

The various classes and interests represented at the conference have not shown, so far, any too much of the spirit recommended by Secretary Lane. Representatives of various interests quarrel over questions of precedence, etc. There is little to be gained by such methods for any group, and certainly nothing for the nation as a whole. What the conference needs, and what the nation and the world need today, more than anything else and more than ever before, is to acknowledge the dependence of all classes and nations upon each other, and proceed to work together instead of against each other.

Citizens "For Revenue Only."

Some people live in a community for what they can get out of it without giving up anything in return. Other people believe that by helping the community as a whole conditions will be made better for themselves, and they can be depended upon to assist in every public movement that has merit and a fair chance of bringing value to the community as a whole. Still others we have known are always willing to do something for anybody and everybody else, neglecting their own business to do it.

The first named we would class as citizens for "revenue only." They are the people who bear the same relation to the community in which they live that the slacker, the draft dodger and the profiteer in food supplies and materials bore to the nation when it was at war.

The last named class is few in number and is not to be commended too greatly, because as a rule the individuals who make up this class are not able to accomplish much, either for themselves or for the community as a whole. You have to admire their helping spirit if you do not admire the results that are attained.

The second class, to which the great bulk of our citizens belong—these are the "salt of the earth." They are the people upon which the prosperity of the community depend. They are the people who save the community from the dry rot and dieback that would set in if it were made up of the first class named, and from the bankruptcy that would inevitably result if the community were made up entirely of the last class.

There is only one reason for the existence of the first class. They merely do not realize the shortcomings of their attitude. A little education, a little concrete example, a little more pep put into the public work of the great majority, a little more definite assertion of the benefits and results accomplished by community work, and the most of them would become converted and would become a part of the majority. As for the remainder, the hardshell citizen, "for revenue only," there is just one thing to do about him. He must be endured, just like chronic rheumatism must be endured.—Leedsburg Commercial.

How Club Boys and Girls Earn Thrift Stamp Money

Top, right—Marie Bradfish, Moultrie, Fla., holding poultry medal she won at the State Fair last year; left—Eula Trantham, Jacksonville Fla., R. 1 D. Bottom, right—Willard Attaway, R. 1, Warrior, Ala.; left—Ernest Johnson, R. 4, Athens, Ala.

"Ask Dad." That was the favorite plan in days gone by when boys and girls wanted ponies, bicycles, trips or circus money. But times have changed. We've had a war and young Americans have learned something about thrift—the kind of thrift that means earning as well as saving.

Canning, poultry and pig clubs have become institutions in most every county. Government Thrift and Savings Stamps have won their way into the hearts of the youngsters. And the combination solves the juvenile problem of getting money for things the young hearts desire. They're earning the dollars now with pigs, poultry, eggs and tomatoes and they're putting

their earnings to work by buying Government savings stamps which pay 4 per cent interest, compounded.

Marie Bradfish cleared something like \$250 in one year on tomatoes and poultry, according to the club records, and won a prize at the state fair. Eula Trantham's profits from her garden and chickens amounted to \$550. Ernest Johnson saved \$200 of profits from his pigs and had finished hogs on hand valued at \$700. Willard Attaway started out with one pig and later, at the state fair, showed a herd that required six pens to accommodate.

That's how the thrift boys and girls in the South are getting money for Thrift and Savings Stamps and other things they want.

Judge and Mrs. O. J. Tomlinson, accompanied by Mrs. E. J. Huntley, arrived in St. Cloud Saturday evening from New York, where Mr. and Mrs. Tomlinson have been spending several weeks. Mrs. Huntley has come to spend the winter, and may become so well pleased that she will make this her future home. She is stopping with the Tomlinsons.

Tomorrow evening the first dance of the season at the Lake Shore Boat and Bath House will be given. An orchestra has been secured by Mr. DeKoven, and an evening's entertainment has been planned. Fruits and ice cream and candies will be on hand. The general public is invited to attend. The boat house dock has been rebuilt during the past two weeks, and is now ready for use.

C. C. Pike, St. Cloud's up-to-date photographer, has returned from a short visit in Chicago and other points, and announces that he has added several modern improvements to his already superior equipment, and that he is again ready to give his personal attention to all classes of photography. He is now open at the studio in the Peckham building. Make arrangements for your pictures now. 8-11

Christmas presents given to friends can usually be duplicated at some good store, but there is one present that is becoming more popular each year, and one which cannot be duplicated except by and with the assistance of the original giver. That present is a fine photograph of yourself, something that will be highly appreciated and something that your real friends will accept with more grace than if you search through a hundred shops to get them something for the holiday gift. This year there will be more photographs used for Christmas presents than ever before. Fine cabinet work photos, etchings, in various finishes and sizes, can be had of the highest quality right here in St. Cloud at the Pike Studios, in the Peckham building. Order your picture now and get them ready before the holiday rush. Nothing better has ever been offered. 8-11

The Looter and the Police

One of the claims to fame of "dear, dirty Dublin" is that it was the scene of the first police strike. A mob, which ordinarily hated the "force," became sympathetic and broke all the shop windows. An old lady with a stolen ham under each arm was stopped by another who took one of them away from her saying, "You've more than your share." "Police! Police!" cried the victim. Then, when there was no reply she said, "Bad 'cess to them! They're never there when they're wanted." It might have happened in Boston.—New York Herald.

COAST TO COAST U. S. FOR LEAGUE

MILLIONS ACCLAIM WILSON AS HE SPEEDS ACROSS THE LAND.

FEW ASK FOR CHANGES

Majority Feel That President's Guidance Should Be Held—He Regards Pact As Sure to Come Soon.

From the Capitol at Washington to the far Pacific coast the President of the United States has journeyed on the most unusual expedition ever undertaken by a chief executive of the nation.

To discuss national questions, many presidents have toured the land; but Mr. Wilson is laying before America a question which affects the whole world—the question of whether or not we are to join in the League of Nations; whether we are to forget our former isolation and share with the other peoples of the earth the responsibilities of maintaining civilization and preventing, as he says we can do, future warfare.

Between the capital and the coast the president made fifteen speeches and half a dozen brief talks. All of 100,000 fellow citizens listened to him. Several millions had the chance to see him, and apparently everyone wanted to see him, from those who thronged the streets of the cities and towns where he stopped, to those who came to the rail side or stood at little flag stations in remote places, knowing their only reward could be a fleeting glimpse and a wave of the hand.

He has met and talked to all types of citizens—to men big in the business, financial and professional worlds, to farmers and mechanical workers, to Indians and cowboys and foreign-born herdsmen and rangers, to soldiers and to mothers who lost soldier-sons in the late war.

What do they all tell him? unanimously they say they want peace definitely settled, they want no more wars, they want the League of Nations, and most of the American people, it may be fairly said, tell the President they want the League just as it is, without the reservations or amendments which certain senators have insisted upon. The majority of citizens say to those who interview them on this tour:

"Woodrow Wilson guided us rightly before and during the war with Germany. We entered that war, everyone agrees, to end all wars. He says the league can do that. We want to do that, so let us keep on trusting him and get the league into operation as soon as possible. Forget politics."

Most Americans encountered on the tour have forgotten politics. Republican Governors and Mayors have introduced the President to his audience; the Major part of the local committees which have met him have been Republicans. They have all said: "We are nothing but Americans, Mr. President."

Mr. Wilson's arguments for the league, briefly summarized, are those:

There can be no peace, either now or in the future, without it. There can only be a regrouping of nations and a new "Balance of Power," which is certain to lead to war. There can be no war in the future, with the league in existence, because no single nation would defy the united rest of mankind, and if it did, it could be brought to terms by an economic boycott, and without the use of arms.

There can be no reduction in the cost of living until the league is established, for nations will not go ahead with peace time production until they know that peace is definitely assured and that production of war material is no longer necessary.

There can be wonderful prosperity, with the league in existence, for relations of labor and capital all over the world will be made closer and more friendly, and the worker will receive a fairer share of what he produces.

These declaration of the president, logically and eloquently put, have left his hearers thinking and thinking deeply. And then Mr. Wilson has pointed out, the people themselves, as differentiated from senators and politicians, seem to want just what the president wants, which is America for leadership.

Quite as unusual as the purpose of the cross country tour is the manner in which it is being carried out and the completeness of the arrangements on the nine car train which is bearing the party.

At the rear is the private car Mayflower, occupied by the President and Mrs. Wilson. Next is a compartment car for the secretary Tumulty, Admiral Grayson, Mr. Wilson's physician, four stenographers, the chief executive clerk and seven secret service men. Beyond are three compartment cars which house twenty-one correspondents, five movie men, and a telegraphic and a railroad expert. Then there is a dinner, a club car, and two baggage cars, one of them converted into a business office. The train was exactly on time at every stop between Washington and the coast.

5,000 Helpless Orphans in South Are Asking the Privileges of a Home

Baptists are providing for That Many at Present in Fifteen Institutions But as Many More Are Waiting for Admission--The 75 Million Campaign Plans to Meet That Need.

A Group of Boys and Girls in the Tennessee Baptist Orphans Home near Nashville who are being cared for and trained for useful lives.

Does your heart go out to the worthy boy and girl bereft by the Grim Reaper of father and mother, and left alone in the world without the fostering care of those to whom they are naturally most dear in the world?

Then you will understand why Southern Baptists have established orphanages in fifteen states, are caring for 5,000 such children in those homes and training them for useful lives in the world.

But the need is far greater than the ability of these institutions to meet it. While five thousand children are being cared for in these orphanages, there are on the waiting list of these institutions fully five thousand more equally worthy, fatherless and motherless boys and girls who want the privileges which these orphanages afford but which must be denied them for the present because there is no room with which to shelter more of them.

So when the Baptist 75 Million Campaign was launched for the enlargement of the work of the denomination along general lines in an effort to meet growing spiritual needs in the homeland and throughout the world, the sum of \$4,700,000 was apportioned to the orphanages, this sum to cover a program of five years, as the \$75,000,000 sought in the campaign will be raised in cash and five-year pledges during Victory Week, November 30-December 7.

In the homes that have been provided for the orphans facilities are provided for giving regular schooling of the same character that is afforded in the public schools, beginning with the kindergarten and continuing to the tenth and eleventh grades in the

high school. This work in the school room is supplemented, however, with practical training along industrial and other lines. For instance, the boys are given courses in practical farm work on farms which have been purchased and are operated by the homes, livestock production, carpentering, tin work, plumbing, laundrying, and the like, as well as courses in business for those who show special adaptation for that line of work.

The school room work for the girls is supplemented with the study of music, domestic science, stenography and the like. Large attention is given to the religious life of the children, also, and this is given emphasis in the daily chapel services, and in the Sunday School and preaching services on the Sabbath.

The orphan children respond readily to the opportunities and privileges afforded them and there have gone out from these institutions a number of the most useful men and women in the various states. While taking pride in the accomplishments of the boys and girls who are in the homes at present, as well as those who have gone out from there to make their own way in the world, the superintendent and teachers are saddened by the fact that there are so many other helpless children who ought to be aided but can not be by reason of the limitations of the homes.

Enlargements are necessary for all of the fifteen orphanages fostered by Southern Baptists which are located in the following states: Alabama, Arkansas, Florida, Georgia, Illinois, Kentucky, Louisiana, Mississippi, Missouri, North Carolina, Oklahoma, South Carolina, Tennessee, Texas and Virginia.

13 MILLION WHITE PEOPLE NOT SAVED

THIS IS ONE OF THE PRESSING STATE MISSION PROBLEMS IN THE SOUTHLAND.

THE SITUATION IS OUTLINED

Baptist 75 Million Campaign Has Apportioned \$11,000,000 To Be Employed During the Next Five Years in Meeting Need.

Within the eighteen states comprising the territory of the Southern Baptist convention are 13,000,000 white people who are not only not identified with any church, but who do not claim to be Christians, according to information gathered by the Baptist 75 Million Campaign. To try and reach these people with the gospel is one of the aims of the campaign and to meet the problem the state mission organization in the various states will set themselves. To help these organizations in meeting that problem the sum of \$11,000,000 has been apportioned from the total of \$75,000,000 that is sought for all purposes, and during the next five years the state mission forces will seek to reach these millions of people right here at home with the gospel and enlist them in some phase of Christian work.

According to this same source of information, it is learned that there are 2,391 towns and villages in the South with a population of 200 or more in which there are no Baptist church organizations or no Baptist houses of worship. Inasmuch as these towns influence more or less the surrounding territory an effort will be made to reach them and the territory surrounding them during the five-year program of the Baptists, it is announced.

OLD AGE STARTS WITH YOUR KIDNEYS

Science says that old age begins with weakened kidneys and digestive organs. This being true, it is easy to understand that by keeping the kidneys and digestive organs cleansed and in proper working order old age can be deferred and life prolonged far beyond that enjoyed by the average person.

For over 200 years GOLD MEDAL Haaslem Oil has been relieving the weaknesses and disability due to advancing years. It is a standard old-time home remedy and needs no introduction. GOLD MEDAL Haaslem Oil is included in odorless, tasteless capsules containing about 5 drops each. Take them as you would a pill, with a small swallow of water. The oil stimulates the kidneys, action that causes premature old age. New life and strength increase as you continue the treatment. When completely restored continue taking a capsule or two each day. GOLD MEDAL Haaslem Oil Capsules will keep you in health and vigor and prevent a return of the disease.

Do not wait until old age or disease have settled down for good. Go to your druggist and get a box of GOLD MEDAL Haaslem Oil Capsules. Money refunded if they do not help you. Three times. But remember to ask for the original imported GOLD MEDAL brand. In sealed packages.

Announcing the Opening of Our New Home at Tenth and Florida Avenue PROGRESSIVE GARAGE "ON THE DIXIE HIGHWAY" WE WISH to announce to our patrons and to the thousands of tourists that are headed for Florida this season, that we will occupy our new home, now nearing completion at Tenth street and Florida ave., between November 1st and 15th, and will be better prepared to handle all classes of automobile work and furnish supplies of all kinds than any other concern in this section of Florida. After becoming established in business here, we saw the need for a permanent home for our growing business, and selected one of the best locations in the city to build our own establishment. Workmen are now placing the roof on our large garage and office building at the above address, and we will begin to move from our present quarters on November 1st. We will cater to the general automobile trade, maintaining a high class repair department in charge of skilled mechanics, and keep a full supply of repairs and supplies for all makes of automobiles. We will carry a full line of Ajax tires, and other standard makes as desired. Our salesroom for new cars will be opened at a later date. Our large garage will afford storage for a number of cars and we invite tourists passing from east to west in Florida over the St. Cloud-Melbourne road [the first and shortest route east and west in the State] to make use of our facilities. PROGRESSIVE GARAGE A. T. MEEKER, Proprietor Tenth and Florida Ave. Present Address Eleventh and Penn.

October 6, 1919 1:30 p. m. Council met in recessed special session with B. F. Ralls presiding and the following members of council present: George Barber, P. Rothrock, N. H. Washburn, F. B. Kenney. After considering the various complaints and discussing the same, it was moved by Kenney and seconded by Barber that the following changes and assessments be made: Lots 13-14, Block 42, J. W. Scott, raise from \$350 to \$500. Lots 3-4, Block 229, Tennis Penn, raise from \$520 to \$700. Lots 7-8, Block 229, J. H. Boswell, reduce from \$700 to \$600. Lots 21-22, Block 221, M. E. Who's Looking Ahead? Since congress is doing nothing to change the date in inauguration day to a more salubrious time of year, it is probable that Mr. Whatshisname will take the presidential chair at the usual time a year from the coming March.—Boston Transcript. CAMELS are in a class by themselves—easily the most refreshing, the most likable cigarette you ever smoked.

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine-paper-covered carton.

R. J. Reynolds Tobacco Co. Winston-Salem, N. C.

Made to meet your taste, Camels never tire it, no matter how liberally you smoke them! The expert blend of choice Turkish and choice Domestic tobaccos makes Camels delightful—so full-bodied, yet so fascinatingly smooth and mellow-mild.

Freedom from any unpleasant cigarette after taste or any unpleasant cigarette odor makes Camels as unusual as they are enjoyable.

In fact, Camels appeal to the most fastidious smoker in so many new ways you never will miss the absence of coupons, premiums or gifts. You'll prefer Camel Quality!

President's church, said resignation to take effect at once.

Whatever may have been the cause of the good Doctor's action, we all know it was prompted by his own good judgment. The last two years have been full of anxieties. Mrs. Witherspoon has been very ill. The only son was called from his senior year in college to enter the army.

Kissimmee loses in the departure of Dr. Witherspoon one who walked among us with singleness of purpose, that of righteousness. He was always ready to champion and lead in every progressive and right cause.

Mrs. Hendley Visits Kissimmee Clubs. At the Chapter House on Thursday afternoon, Oct. 9, gathered club women representing the Hart Memorial League, the W. C. T. U., the Woman's Club and the Mothers' Club.

Mrs. G. W. Best called the meeting to order then asked Mrs. Frupp to announce the program in honor of her long-time friend, the official guest.

Mrs. Hendley, though having lived in Florida since early girlhood, is a Hoosier by birth. So by special request Miss Maud Alice Wagner (likewise born in Indiana) gave a delightful musical number and Mrs. J. E. Luper read "Out to Old Aunt Mary's," by Riley, accompanied by Lucy Buckles.

Mrs. Hendley then addressed the women on club topics, the value of organization, the demand for efficiency, and the achievement that comes through constancy were dwelt upon. She emphasized the benefit that comes through large membership, the value of reaching many women.

Following her club method suggestions, Mrs. Hendley stressed the importance of one hundred per cent Americanism. That at this particular time it behooves every man, every woman, to rise to the full stature of American citizenship.

Mrs. Hendley is one of the most executive members of the state board, and is being urged to accept candidacy for the state presidency. She is the wife of J. A. Hendley, a retired lawyer of Dade City, who served in the state legislature at the time C. A. Carson was senator.

Some men can see beauty where others fail to locate it with a microscope.

THAT MORNING LAMENESS

If you are lame every morning, and suffer urinary ills, there must be a cause. Often it's weak kidneys. To strengthen the weakened kidneys and avert more serious troubles, use Doan's Kidney Pills.

J. L. Wirt, retired furniture dealer, 23 Broadway, Bartow, Fla., says: "I suffered from the effect of lame back some few years ago. My back was lame and sore, especially mornings, and I found great difficulty in dressing. My kidneys acted so frequently and I had to get up in the night on this account, losing much sleep. I got dizzy once in a while, too. Reading about Doan's Kidney Pills I got a box and they entirely relieved me of the back ache, strengthened my kidneys and fixed me up in good shape."

also the 24th annual re-union of the United Confederate Veterans, which includes the Sons of Veterans and the Daughters of the Confederacy. Mrs. O'Bryan was assistant chaperone of the Florida Division, which comprised the largest delegation which ever left the state.

Mrs. F. G. Thomason is visiting relatives in St. Petersburg this week.

Mrs. Carson Farmer has returned from a two months' visit in North Carolina.

Miss Lavinia Wenner (of Wenner-Sawyer firm) is in Jacksonville for a week's stay in the interest of business.

Mr. and Mrs. Henry Harper are again in town. They made a trip which included New York, Ohio and Michigan.

Miss Inez Carson returned last Thursday from an extensive visit in several northern states. She spent several weeks in the bracing, vigorous climate of northern Michigan, so, of course, she returns in excellent health.

Mrs. A. Cotterman and daughter Elizabeth reached home on Tuesday. They left some weeks ago for Indiana, expecting to remain several months. However, the climate seemed too severe for Elizabeth and the doctor ordered their speedy return.

The Methodist congregation was excessively pleased last Sunday morning by the solo "Of Whom Shall I Be Afraid," rendered so charmingly by Mrs. Paul K. Weaver. Mrs. Weaver's voice is a rich, rare contralto, but greater than her voice is her genial personality.

Among out of town guests in the city Sunday afternoon to enjoy the concert were Mr. and Mrs. L. U. Zimmer, man of St. Cloud.

Mrs. E. G. Vans Agnew is reported to be improving wonderfully. She still remains in the Orlando hospital, where she underwent a serious operation.

The Methodist Woman's Missionary Society met with Mrs. J. L. Overstreet on Wednesday afternoon. Last Saturday this society conducted a bakery sale at Roberson's drug store, from which they realized \$50, this money to be applied to furnishings for the parsonage.

Our school football team is made up of boys small in stature, but mighty in courage. In fact, the boys are too young and too small to have scheduled with state teams. Last Saturday they played Plant City. The Plant City team averaged to a man 30lbs. each heavier in weight than the Kissimmee boys. We admire our boys, but we regret their casualties. Bryan Simpson, our point guard, was in the Orlando hospital in a precarious condition—broken collar bone and dislocation. Joe Sears, Congressman Sears' son, and C. H. Summers, Rev. Summers' son, both sustained injuries and have been ordered by physicians to never enter football games again.
